07/05/2021

Dear Sir or Madam,

It is my pleasure to write to recommend Nguyen Tuan Dung, for a future opportunity, they interned at Refoveo Pte Ltd during the winter break of 2020.

Dung's positive attitude and work ethic were an asset to Refoveo and I'm sure they would be an asset to any future employer.

Dung worked on a market research project, for one of Refoveo's clients. They focused on market research and market entry, this required them to carry out secondary research, source their findings and explain the impact of these findings, in order to develop recommendations. This analysis and the subsequent recommendations were used in the eventual final client deliverable. Dung participated in the client handover, presenting his section and was able to answer the client's questions confidently when asked.

I can thoroughly recommend Dung as an asset to any organisation.

Kind regards
